Mailing System
DM1000™ with IntelliLink™ Technology
The ultimate in high volume mail productivity and durability
Perhaps the greatest challenge to advancing technology is to simplify its use. This has been our overriding objective as we have virtually rewritten the rules for mail processing. The result...the DM Series™ of Mailing Systems powered by IntelliLink™ Technology.

Mail is a crucial element for growing your business and retaining your hard-earned customers, and it’s a proven tool for acquiring new ones. Mail is a critical communication tool that can’t be overlooked, and that’s why we’ve developed an entirely new family of simple, yet productive mailing systems.

The DM Series™ delivers this promise and it introduces our revolutionary IntelliLink™ Technology, which is flexible enough to support Canada Post compliance standards. So whether you’re looking for an entry level or fully featured system, the DM Series™ can meet your needs. It’s the reward you receive when you dare to simplify.

Unmatched Productivity And Rugged Durability
Put The DM1000™ Far Ahead Of Anything Else In Its Class.

- **True Mixed Mail Feeding** – The DM1000™ can feed a continuous and varied stream of mail to eliminate time-consuming sorting. It feeds mail that’s mixed in weight and varies in thickness all in one simple, fast operation.

- **Weigh-On-The-Way™ (WOW™) Technology** – Our patented technology maximizes efficiency by processing mixed weight material up to 500 grams (16 oz) – automatically and in a single operation. Each piece is weighed, the proper rate is calculated and the postage is imprinted at speeds up to 150 letters per minute.

- **Streamlined, High Speed Processing** – The DM1000™ gets big jobs done quickly and efficiently by automatically feeding, sealing, printing postage and stacking up to 260 pieces of uniformly sized mail per minute. This system’s advanced technology gets big jobs out the door quickly.

- **Open And Closed Flap Sealing** – The DM1000™ minimizes sorting based on its ability to handle mixed envelope flap configurations including combinations of closed flap, open flap and pre-sealed mail.

- **Advanced Detection Sensors** – These sensors are located throughout the feeding and transport path to enhance the processing of difficult materials like postcards or “dark mail”, and they detect oversize mail and add the proper surcharge.

- **Built To Last And Designed For Maximum Uptime** – Advanced engineering has produced a system with more capabilities and fewer moving parts. With fewer components to wear, the DM1000™ will deliver long term, reliable operation. And, there’s 100% access to the envelope path for quick adjustments and to protect contents from damage.

- **Enhanced Jet-Spray™ Sealing With Sensor Controls** – Sensors detect and follow the contour of the envelope flap as it passes through the system. This enables the system to apply the correct amount of sealing solution to the glue line. It moistens up to a 4” flap automatically and interlocked pressure rollers apply firm pressure as the envelope exits the system.
Unmatched Productivity And Rugged Durability

Put The DM100™ Far Ahead Of Anything Else In Its Class.

Choose from many productive weighing options

Weigh-On-The-Way™ eliminates sorting by weight and size

Tip-To-Tip Sealing is secure and protects contents

Auto Sensors automatically align mail for precise imprints

Mixed Mail Feeding increases productivity

IntelliLink™ Control Centre makes operation easier than ever

Choose from many productive weighing options

IntelliLink™ Control Centre Makes Operation As Simple As Humanly Possible

• **IntelliLink™ Control Centre** – The DM100™ system is fully integrated, enabling all of its functions to be activated and controlled from a single point. The IntelliLink™ Control Centre swivels so that it can easily be seen from all operation angles, and easily detaches for connections to an analog line.

• **Simplified Rating** – All rate selections are made through the IntelliLink™ Control Centre and update automatically. The DM100’s™ rating options include Canada Post’s Domestic, U.S. and International rates.

• **Easy To Read Prompts** – The IntelliLink™ Control Centre guides even the most inexperienced user through the steps needed to get the mail out. These prompts include set-up, accounting, rating, and processing functions.

• **Job Presets** – The system can be programmed to handle up to 10 routine jobs. This enables even new operators to run applications that are stored in memory.

• **Ergonomic Console** minimizes noise and vibration and maximizes storage

• **Digital Technology** Provides Unequalled Flexibility

• **Keeps You Current** – The technology works every day to keep you current, allowing you to initiate downloads (on-demand or automatically) of new features and to keep you up to date on your account.

• **Razor-Sharp Digital Printing** – The inkjet printing process creates crisp, neat images. No more partial imprints due to unevenly filled envelopes.

• **IntelliLink™ Technology** has the flexibility to support Canada Post compliance standards.

• **Envelope Advertising** – You can print a message on every envelope you mail with your choice of envelope ads.

• **Simplified Rating** – All rate selections are made through the IntelliLink™ Control Centre and update automatically. The DM100’s™ rating options include Canada Post’s Domestic, U.S. and International rates.

External Weighing Options Deliver Even More Productivity And Savings

- Interfaced Weighing Platform – Configure the best system for your applications by choosing from our optional platform scales with weight capacities up to 55 kg. Each one delivers guaranteed, electronic accuracy.

Mail Now, Pay Later with PitneyWorks™

All Pitney Bowes DM Series™ Mailing Systems are PitneyWorks™ ready. This allows you to process your mail as your business requires, then receive one convenient, consolidated bill each month for all your postage needs. It’s that easy!

- Differential Weighing – This feature gives you maximum flexibility by allowing you to process mixed weight mail pieces and parcels together in the same run with two easy steps.

Other Productivity Enhancing Features

- Auto Oversize – Identifies mail that requires a postal surcharge based on size and applies the correct postage without manual intervention.

- Auto-Class Select – Identifies mail that is overweight or oversized for a certain class and automatically switches to the next appropriate class and rate without manual intervention.

- Auto-Tape Mode – Sets the system to automatically generate a tape as each mail piece is placed on the scale. Simplifies the repetitive processing of heavier mail.

- Dual Tape Capability – The hassle-free Drop-in Roll tape system makes loading postage tape effortless and is a standard feature that accommodates either gummed or pressure sensitive tape.

The gummed tape can be delivered either “wet or “dry. The system cuts each tape to the exact size providing more efficient supply usage. In addition, the reservoirs for E Z Seal™ solution are visible allowing you to complete jobs without an unexpected need to refill.

Accounting Capability That Transforms Your Mail Centre Into A Profit Centre

- Accounting Options – The DM1000™ gives you virtually unlimited accounting options. You can take advantage of the system’s internal storage capacity for up to 300 accounts. Need more accounts? Take advantage of one of our more enhanced accounting solutions. Now you can monitor, track, store and report every cent spent on postage, making your mail centre a tightly controlled, profit-oriented operation.

- Integrated Keyboard Saves Steps – The keyboard within the IntelliLink™ Control Centre makes operation easy – even for the occasional operator. The single view system simplifies account set-up and job/report naming functions.
Your Digital Gateway To Exclusive Mail Services

Intelligent mailing with one-touch convenience – that’s what IntelliLink™ Technology delivers. You’ll gain access to a suite of services and management information that will improve the productivity of your mail centre and the performance of your business. Imagine the benefits.

- **Canada Post Services** – One-touch online postage replenishment is easy and fast through our Postage by Phone™ system. Choose from a variety of prepaid payment methods or go for ultimate convenience with PitneyWorks™, our mail now – pay later solution. PitneyWorks™ gives you the convenience of receiving one consolidated postage bill each month.

- **IntelliLink™ Package Services** – A shipping application that provides you with a diverse range of discounts from Canada Post. IntelliLink™ Package Services automatically weighs, rates and records the shipping details of each package – so you don’t have to.

- **Exclusive Pitney Bowes Services** – “My Account” at www.pitneybowes.ca allows you to order supplies, check on the status of your order and even request service! Our professional services ensure the peak performance of our equipment solutions.

- **Instant System Updates** – IntelliLink™ maintains your operating system with the latest software downloads. This ensures maximum performance and protects you from near-term obsolescence.

How IntelliLink™ Technology Works

Just connect your IntelliLink™ Control Centre to an analog phone line, and you are automatically linked to our dedicated, Pitney Bowes Server. This ensures that your DM Series™ Mailing System keeps current; and you stay linked for postage funds, Canada Post Services, software updates and more. In addition, through your PC our other exclusive Pitney Bowes Services are available when you need them.

IntelliLink™ Technology will bring your mailing operation into a new era of productivity. Every mail service and productivity function you could need is at your fingertips.
DM1000™ Specifications

Dimensions
- Size: Length: 199 cm (77") w/drop stacker, 220 cm (87") w/ power stacker. Width: 60 cm (24”). Height: 48 cm (19”)
- Weight: 137 lbs. (62.5 kg)

Electrical
- Operates on 100 - 240 VAC, 50/60 Hz, 6.5 amps max. plus 3.0 amps max. accessory outlet.
- UL listed
- ENERGY STAR™ Compliant

Speed
- Up to 260/lpm (WOW™ off)
- Up to 130/lpm (WOW™ on)

Envelope and Card Sizes
- Minimum: 3 1/2” x 5” postcard size
- Maximum: 13” x 15” without WOW™, 13” x 13” with WOW™
- Thickness: 3/4” max. to .007” min.
- Envelope Flap Depth for sealing
  - Flaps open: Minimum 3/4”, Maximum 4”
  - Flaps closed: Minimum 3/4, Maximum 2 3/4”

Connectivity Requirements
- Connects to a standard analog phone line.
- Supplied installation kit includes phone line splitter and six foot phone cord.
- IntelliLink™ Control Centre easily detaches to simplify connections.

Standard Operating Features
- Auto-Dating
- Multiple Tapes (1-50)
- Low Fund Alert
- High Value Protection
- Original Value Resetting
- Sealant Level Indicator
- Seal Only And No Seal Modes
- Low Ink Alert
- Password Security
- Standard Envelope Advertisements (8)
- Maximum Thickness Warning
- WOW™ Weigh On The Way™
- Mixed Size, Thickness And Weight Feeding
- Opened, Closed And Sealed Envelope Feeding

Our Service Professionals Are Ready When You Need Them

If you need service, our nationwide network of trained Pitney Bowes service professionals is ready to help. Our Computer Enhanced Service Management System lets us record your request, instantly call up a complete history of the equipment, and quickly dispatch a local Customer Service Representative with the right skills.

At Pitney Bowes, we offer integrated mail and document management solutions that can significantly improve your communication flow, increase revenue and ultimately drive shareholder value. Our solutions include:
- Mail Management
- Document Management
- Strategic Outsourcing
- Small Business Solutions

Our Commitment to Service
We are committed to providing our customers with the finest products and solutions backed by the highest quality service and customer care. We have a coast-to-coast network of trained Pitney Bowes service specialists plus a series of Advanced Customer Service Solutions to ensure our customers always receive the highest levels of service and support. Ask your Pitney Bowes Sales Representative for more information about our Customer Satisfaction Guarantee.
