

Digital Mailing System DM230™ Series

Simple and efficient mail processing

The DM230™ Series Mailing Systems Maximize Office Productivity.

The DM230™ Series Digital Mailing Systems Are Simple To Use And Highly Productive!

Today, every business needs to operate as efficiently as possible. Even daily, routine tasks need to be performed in a productive manner. The time has come to expect more from your current mail processing procedures. The all new, easy-to-use, DM230™ Series Desktop Mailing System will amaze you with its simplicity and convenient capabilities.

The DM230™ Series' IntelliLink™ Technology Simplifies Mailing

Our cutting-edge IntelliLink™ Technology is the gateway to new levels of productivity and makes the DM230™ easier to use, more efficient and worry-free. Plus, you can gain access to a suite of services that include downloadable features, ad graphics, postal rate and software upgrades and more. This ensures that your system keeps current and operates at maximum efficiency.

The DM230™ Desktop Mailing Machine Offers Greater Capability In A Lower Volume System.

- **User-Friendly Control Centre**
 - You'll learn to use the DM230™ in only minutes. It takes you through every processing step showing the expanded 8-line graphics display.
- **Internal Rating Function**
 - Select the most effective and economical postage rate automatically.
- **Saves You Valuable Time**
 - Access postage replenishment online, 24/7, simply press a button and get all the postage you need through Postage by Phone™ and pay for it later with PitneyWorks™.
- **Delivers A Message With Your Mail**
 - The DM230™ stores up to 20 advertising slogans

User-friendly Control Centre, powered by IntelliLink™ Technology

Fast, efficient processing of up to 40 pieces per minute

Seals your envelopes tightly and securely

Feeds envelopes up to 5/16" thick

Simple, one-touch Postage By Phone® Resetting

Interfaced weighing option

Crisp images and quiet operation

- **Auto-Dating Eliminates Returned Mail Due To Misdating**
 - An internal clock advances the date automatically. Operators can advance the date to get a jump on processing tomorrow's mail.
- **Incoming Mail Dating**
 - Time and date stamp capability tracks your incoming mail.
- **Handle Rate Changes Easily**
 - IntelliLink™ Technology allows postage rate changes to occur automatically. No need to scramble to replace a PROM chip.
- **Digital Technology Is A Gateway To The Future**
 - Its digital postage indicia satisfies all current postal regulations, and the technology's flexibility makes the DM230™ adaptable for the future.
- **Accounting Capability**
 - It's crucial for businesses to account for postage expenses. Track up to 100 accounts.
