The DM300™ Series Digital Mailing Systems Increase The Speed, Ease, And Productivity Of Mail Processing.

The DM300™ Series Digital Mailing Systems Use IntelliLink® Technology To Simplify Operation And To Increase Productivity

Businesses today depend on productive processes to function effectively. DM300™ Series Digital Mailing Systems provide a compact and complete solution. It’s an integrated mailing system that gives you the big system capability that makes mail processing as productive as possible … all in a compact footprint that fits where space is at a premium.

The DM300™ Series’ IntelliLink® Technology Simplifies Mailing

Our cutting-edge IntelliLink® Technology is the gateway to new levels of productivity and makes the DM300™ system easier to use and more efficient. Plus, you can gain access to a suite of services that include downloadable features, ad graphics, postal rate and software upgrades. This ensures that your system keeps current and operates at maximum efficiency.

The DM300™ Desktop Mailing Machine Offers You Convenient And Productive Features.

• User-Friendly Control Center – You’ll learn to use the DM300™ system in only minutes. It takes you through every processing step showing the expanded 8-line graphics display. Dedicated functions and labeled keys ensure faster processing.

• Internal Rating Function – Select the most effective and economical postage rate.

• Saves You Valuable Time – Access postage replenishment online, 24/7, simply press a button and get all the postage you need.

• Tapes Add Versatility And Speed – Auto feed up to 50 strip tapes.

• Auto-Dating Eliminates Returned Mail Due To Misdating – An internal clock advances the date automatically. Operators can advance the date to get a jump on processing tomorrow’s mail.

• Incoming Mail Dating – Time and date stamp capability tracks your incoming mail.

• Handle Rate Changes Easily – IntelliLink® Technology allows postage rate changes to occur automatically. No need to scramble to replace a PROM chip.

• Digital Technology Is A Gateway To The Future – Its digital meter indicia satisfies all current postal regulations, and the technology’s flexibility makes the DM300™ adaptable for the future.

• Access To Vital Services – Take full advantage of special services online, including Delivery Confirmation.

• Accounting Capability – Accounting for postage expenses is crucial. Track up to 50 accounts with an option to track up to 100 accounts. Also, data can be imported to a PC or printer.
