

Ultimail 60

Professional quality mailing has never been easier or more efficient.

If you are a small business looking for ways to enhance image as well as productivity, the Ultimail™ 60 is the perfect solution. You will quickly eliminate trips to the post office and the aggravation and time it takes to manually process the mail with this easy-to-use, efficient postage machine. Because no special training is required to operate the Ultimail 60, anyone in the office can automatically process up to 75 pieces per minute with 600 dpi crisp postage printing that projects a professional appearance. And the advanced features on the Ultimail 60 make sure you don't overpay for postage by ensuring just the right amount is charged for each item mailed.

The Ultimail 60 is also designed to be IBIP compliant, meeting all USPS standards for mail security. The convenient small size and silent operation of the Ultimail 60 make it possible to place it virtually anywhere in the office without disturbing other co-workers. It is also easy to take advantage of an additional opportunity to make a professional connection with your customers with the Ultimail 60's ability to insert targeted messages or logos into the white space of each envelope. Using this option to reinforce key messages or introduce special offers that recipients are sure to notice is just one more way the Ultimail 60 will provide added value to your business.

Ultimail 60

Key Advantages

Blends Perfectly into Small Office Environment Designed for image and productivity, the Ultimail™ 60 offers crisp postage printing at 600 dpi print quality. Ergonomically designed to fit in small spaces, its clean and silent operation will enhance the efficiency of your office and your professional image.

User-friendly Design A combination of a soft-touch panel with an easy to understand LCD display virtually eliminates any learning curve for operators. Anyone in the office can use it.

Sophisticated Features The Ultimail 60 is packed with features you would expect to find in much larger mailing solutions. It provides an information-based indicia program (IBIP) that delivers the highest level of security proposed by the USPS. Available with either a semi-auto or auto-feed option. Other trend-setting features include automatic dating, auto re-dating, postage correction, automatic label dispenser and more.

Strengthen Brand Awareness Further strengthen company image with the ability to program up to six customizable messages. Place logos or promotions in the white space on envelopes at mail time for added visibility.
