

ultimail 90

Unmatched performance and versatility immediately deliver bottom-line benefits.

The ultimail™ 90 meets all the requirements of a company ready to enjoy advanced control over its mail processing. Easy to use, the ultimail 90 automatically processes up to 115 pieces per minute with a crisp 600-dpi print quality. Experience bottom-line benefits immediately with its ability to track up to 50 departments, giving you instant access to where postage dollars are being spent. When integrated with optional scales and enhanced accounting and shipping software, the versatile ultimail 90 can become an independent shipping station, saving additional time and money.

The ultimail 90 offers a myriad of world-class enhancements. These advanced features not only make it easy to keep track of how much is spent on postage, but also provide further cost savings by making it possible to add advertisements or logos to the white space on the envelope. You can take advantage of this free advertising opportunity to reinforce key promotions or messages in a place recipients are sure to notice. And for added professionalism and safety, ultimail 90 is IBIP compliant, meeting all USPS standards for mail security.
