MAKE LIGHT WORK OF LONG RUNS

The Neopost AutoFeed provides high-speed capabilities so you can process up to 95 letters per minute – and finish the monthly invoice run or direct mail campaigns in half the time!

PROFESSIONAL IMAGE

The IJ-50 is 100% inkjet and 100% digital, which gives you superbly crisp, clean impressions. A choice of ten customized slogans can be loaded from memory cards and you can add your company name, greetings, marketing slogans – even logos and photographs.

DIFFERENTIAL WEIGHING OPTION SAVES TIME

The IJ-50 checks the weight of envelopes and packages with its integrated, electronic weigh platform and then automatically applies the correct postage. You can even weigh a selection of items using differential weighing. Simply place the items on the platform and it will calculate the weight of each individual item you take off the stack.

EASY TO USE, WHATEVER THE JOB

Whether for a handful of envelopes or a big mailing run, the IJ-50's easy to read display and one-touch controls make operating easy. Long-lasting ink cartridges reduce cost-per-impession and can be replaced in seconds.
