IJ-70

THE VERSATILE SOLUTION FOR BUSY OFFICES AND MAILROOMS

The Neopost IJ-70 is an advanced, automatic mail processing system that combines modular flexibility with advanced performance to deliver a comprehensive mailing solution for your business. Its modularity and efficiency allow you to handle even the most complex mailing jobs with ease, offering oversize envelope and package versatility. The IJ-70 offers advanced functionality and modularity featuring dynamic weighing capability that's unique in its class. And yet, it's extremely easy to use.

Take a look at the multiple standard features and flexible options that will provide you with the ability to customize your mailing system according to your needs.

The Autofeed handles envelopes and flats up to 5/8" thick, in either portrait or landscape

The sealing system ensures a perfect envelope seal and cleans easily without a service call

A WIDE CHOICE OF PLATFORMS

With a choice of 5, 10, 20, 30 and 70 lb. integrated weighing platforms, the IJ-70 is designed to fit every mailing profile. The IJ-70 dynamic scale option checks weight as letters pass through the machine, automatically and accurately adjusting the postal rate.

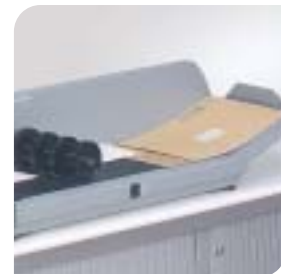

MOST STANDARD DEPARTMENTS IN ITS CLASS

The IJ-70 comes standard with 50 departments that allow you to allocate them to cost centers, up to 200 departments. Accounting records can be printed through an external report printer.

THE SIMPLE SOLUTION TO ALL SIZED MAIL

With the IJ-70, you can take advantage of unique productivity and handling features. Save time using differential weighing, which calculates the postage for each piece removed from the platform. A built-in label dispenser produces self-adhesive label tapes for posting larger items.

FASTEST MAIL PROCESSING IN ITS CLASS

The IJ-70's automatic feeder allows you to process up to 150 letters per minute, with a wide variety of envelope sizes and thicknesses. The sealer automatically closes gummed envelopes and can easily be cleaned without requiring a service call. Also, add a conveyor-stacker to neatly collect your mail, saving even more time and boosting mailroom productivity.

Large, easy to read LCD display with user friendly menus and operator prompts

Automatic label dispenser stores and prints up to 70 labels, for swift and easy package mailings

Simple operation is aided by job memories which enable you to store regularly used settings, as well as automatic date change, eliminating postage waste

PROCESS UP TO 150 ENVELOPES PER MINUTE

FEED MAIL UP TO 5/8" THICK

AUTOMATICALLY SEAL ENVELOPES AND APPLY EXACT POSTAGE

PROGRAM UP TO 10 JOBS INTO MEMORY FOR ONE-TOUCH ACTIVATION

CONTROL AND ALLOCATE POSTAL COSTS FOR UP TO 200 ACCOUNTS

CONNECT TO A PC TO TRACK, ANALYZE AND MANAGE POSTAL EXPENDITURES

PROJECT A QUALITY IMAGE

100% inkjet and 100% digital technology gives you sharp, clear printing that enhances the professional look of your organization. A choice of nine customized slogans can be loaded from memory cards and you can add your company name, greetings, slogans – even logos and photographs.

ADD AN EXTERNAL THERMAL ROLL TAPE DISPENSER

The TRTD is an ideal accessory for your IJ-70 mailing system, providing additional modularity and productivity. It can be controlled from the IJ-70 control panel and can be moved around to the most convenient spot at the mailing station.

COST-EFFECTIVE AND EASY TO USE, WHATEVER THE JOB

Whether for a handful of envelopes or a big mail run, the IJ-70's easy to read display and one-touch controls make operating easy. The IJ-70 provides the most imprints per cartridge in its class. Long-lasting ink cartridges reduce cost-per-impression and can be replaced in seconds.

UPGRADE TO MAILROOM CAPABILITIES

Linked to a folder inserter, the IJ-70 gives you all the advantages of a complete mailroom solution with continuous, ready to mail processing. It deals with your mail ten times faster than a staff member could, and can also be used for direct mail and other marketing activities.

IJ-70

DIGITAL MAILING MACHINE

STANDARD FEATURE SUMMARY

- Compliant with USPS requirements
- Auto Date Advance
- PIN number security
- Multiple ad slogans & postal inscriptions
- Low Postage and Low Ink alerts
- Envelope processing speeds of up to 150 lpm
- Quiet operation
- Track expenditures for up to 200 departments
- 10 programmable job presets

POSTAL EXPENDITURES MANAGEMENT AT HAND

The Neopost IJ-70 can connect directly to a PC, exporting accounting data and reports for advanced cost tracking and analysis using Neopost's postage accounting and management software.

ONE-TOUCH RECREDITING WITH POSTAGE-ON-CALL®

Many re-crediting systems are slow and complicated, often requiring long calls. The IJ-70 helps you avoid all that. Neopost's Postage-On-Call® refills your machine with postage in just a few key strokes, getting you back to business in seconds. With Postage-On-Call®, there's no more waiting for a check to clear before your postage is available. It's postage when you want it, available to you anytime for round-the-clock convenience - 24 hours a day, 365 days a year.

WHY CHOOSE NEOPOST

Neopost is a leading worldwide provider for mailing and shipping solutions. Our innovative products and services bring simplicity and efficiency to your complete mailing process to make your business run more effectively.
