FIRST METER STAMP SOCIETY AUCTION

Closing date -- April 13, 1985

TERMS OF THE AUCTION

-- Lots go to highest bidder at one increment over second highest
  bid. Fractional bids will be reduced to the nearest increment.
-- In case of tie bid, earliest postmark prevails.
-- Postage, insurance and handling costs will be added to the
  winning bids.
-- Although there are no minimum bids, unreasonably low bids will
  be discarded.
-- Successful bidders will be notified with a statement of winning
  bids and shipping charges. Lots will NOT be shipped until
  total payment is received.
-- Unsigned bid sheets cannot be honored.
-- Bids received after April 13, 1985 cannot be honored.

PRICES REALIZED IN THE FIRST M&B AUCTION

Below are listed the prices realized in the first M&B meter auction which was distributed to members as a supplement to our last Bulletin. We are pleased to say that gross sales from the auction were over $1000 -- $1088 to be exact. This was quite gratifying, and we feel that had circumstances been slightly different, the results would have been even stronger. As it was many great bargains were made. A large number of lots sold for well below what their rarity would indicate, but then a few lots received unexpectedly intense bidding and sold for more than was anticipated.

There were several lots that were withdrawn (WD) because of weak bidding. These were mostly bulk lots/collections containing large numbers of very rare meters, several of which were estimated to be valued at $1000 and more apiece. For the most part these lots were not adequately described in the catalog, and some of this material may appear in future auctions with more detailed descriptions.

Several members wrote to say they were reluctant to bid because they had no idea of market value and did not want to embarrass themselves by bidding too high or too low. These people are not alone. There is no established market for meters. This auction, in a sense, will help establish one. In future M&B auctions we will list suggested or minimum bids -- something we did not want to do originally because of our own lack of knowledge of market values.
