1.5.4 Fourth Pitney Bowes Maple Leaf

Two fractional value meter types were used:

FV: W.00: (Short close spaced wavy lines)

Value: OV to \$9.99 ½

FV: W.00W (Short wide spaced wavy lines)

Value: OV to \$9.99⁹

1.5 Friden Maple Leaf

Friden entered Canadian market ca1965. Friden "F" before meter number.
 Purchased by Singer Corporation in 1972.
 Purchased in 1976 by CIT-Alcatel of France to become Friden-Alcatel.
 Friden-Alcatel purchased Roneo in 1980.
 Neopost purchased the company in 1992 to become Friden Neopost.
 Friden "F" replaced by Neopost "N" on some models.
 Mechanical Friden units obsoleted in 2002 by Meter Migration Mandate.

FRIDEN MODEL 9030 POSTAGE METER MAILING MACHINE

Here is all electric mailing ease—the new low cost answer to office mailing drudgery and delays. Specially designed for the Friden* mailing-center, this postage meter mailing machine is ideal for any small-to-medium volume mailer.

You simply dial the postage you want and insert an envelope. The rest is automatic: the machine seals, meter stamps, and stacks your mail in one quick operation. No cranks or levers, not even a button to push.

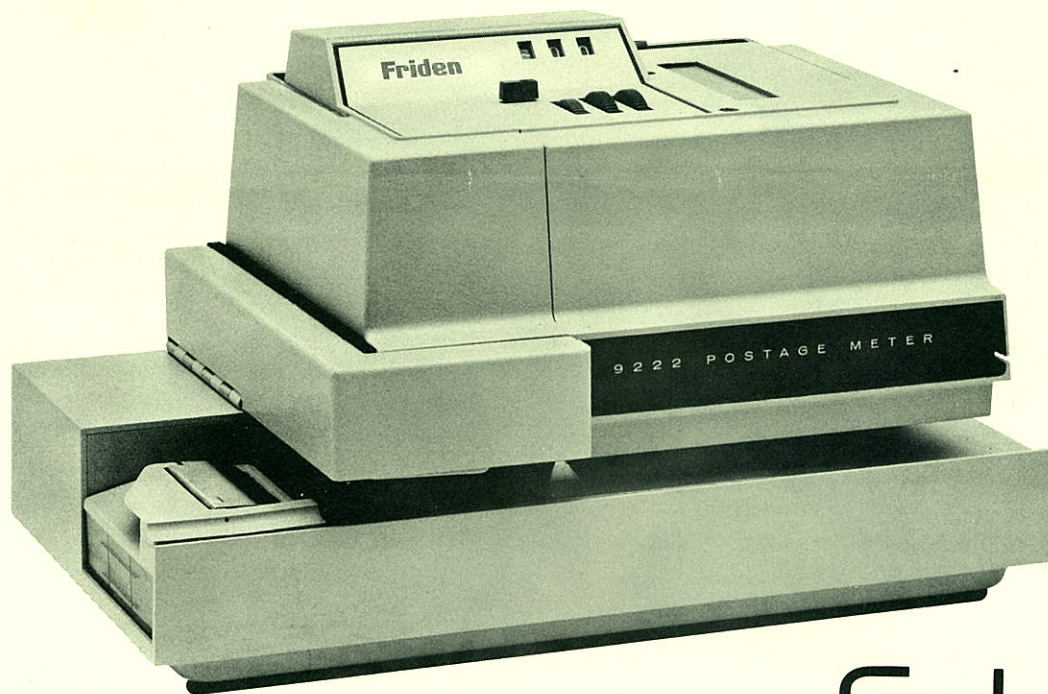

There's never any worry about having the correct stamp denomination. The unit prints any amount from 1¢ through \$9.99 in a single meter imprint. Prints postage on special gummed tape for packages and bulky envelopes, too.

The easy to use date changer, print or omit date control, and safety lock are housed behind the drop-down meter cover. Registers that show amount of postage on hand and amount used provide automatic postage accounting control. Postage capacity of \$9,999.99 means fewer trips to the post office.

While printing your postage, the 9030 Postage Meter Mailing Machine also can print your own advertisement, using a variety of optional stock or custom imprinting plates. Promote your company, its products or services, or your favorite cause.

SPECIFICATIONS:

- Size (base and meter)** • 14 1/2" long / 9 1/4" deep / 8 5/8" high
- Depth (inc. plug)** • 11 1/4"

1.5.7 Friden Second Small Maple

Small hand operated Singer/Friden meter. .
 Smaller value frame, five very small leaves to the right of the value.
 Introduced: 1970
 Obsoleted: 2002
 Meters: 350000+

FV: 00
 Value: 1¢-20¢ and \$1.00.

Province and town name absent in error.

The Mini Meter.
\$8.50 swings it.

Once upon a time, our friendly competitor invented a little postage meter that was better than stamps.

The only thing left for us to do was invent a little postage meter that was better than the one that's "better than stamps".

It's called the Friden® 9205 Mini Meter.

When you take our Mini Meter to the post office, you can get it set for up to \$999.99 worth of postage versus only \$99.99 for their meter. (That means fewer trips for you or your busy secretary.)

Our machine has postage settings for 1¢ through 20¢, plus \$1.00. There's only one to 20¢.

Ours makes only half as much noise as theirs (As you know this because we counted the decibels.)

Ours uses an ink roller that's actually made of ink, and you change it once a year. Theirs uses an ink pad that needs inking frequently... and it can be messy.

Ours shows the date clearly, so it's easy to read. Theirs shows the date and you might get confused.

In short, when we solved the problem of using stamps (give credit where credit is due), we solved the problems of using a postage meter. All for just \$8.50 a month.

We also have a complete line of mailing equipment, including high capacity machines.

For a demonstration, call your local Friden Office at 491-9670. Or, if you'd like to write, Friden Division, The Singer Company, 270 Yorkland Boulevard, Willowdale, Toronto.

Singer introduces the 9120.
 The big, fast mailing machine
 that gives you a choice...
 ...with the electronic features
 that make it the only choice.

There's never before been a mailing machine like the Singer 9120. It's fast. And it's reliable. It has electronic features that make every other mailing machine virtually obsolete.

If mailing machines are your department,

you should see the exciting new Singer 9120. There's never been anything like it.
